Posses Scour Big Basin Redwood Forest In Search Of Kidnappers

Road Guards See Speeding Auto Believed To Be One Used By Kidnappers Of Priest. Claim Crime Is Result Of Plan To Force Catholic Church To Pay Ransom of \$6500

By N. B. TRACY

(United Press Staff Correspondent.)

San Francisco, Cal., Aug. 6.—Heavily armed posses today swept through Big Basin district in the lonely forests of giant redwoods hunting for Father Patrick Heslin, who is being held by kidnappers. Guards along one of the roads leading out of San Francisco reported that during the night an automobile, driven at a terrific pace, flashed through Los Gatos, sixty miles away, headed toward the Big Basin. In it crouched four men and the guards said the slight glimpse afforded of the occupants convinced them one of the men was the missing priest.

Police believed if the kidnappers and their victim got into the Big Basin district, search would be well nigh impossible.

Search Mountain Shacks.

Other posses, however, are raiding the shacks on the mountain and wild seacoast district in San Mateo county, running down every clue. The kidnapping of Father Heslin is believed the result of a carefully prepared plot to force the Catholic church to pay \$6,500 ransom demanded, without regard for the priest affected. Other motives are unknown. Archbishop Hanna stated that Father Heslin was taken to Colma to hear a supposed death confession. He vanished from night and has not been heard from since.

The letter received by Archbishop Hanna, demanding ransom, was typewritten and a blank space was left after the words "I have." This blank was later followed by the words, "of Colma."

The writer of the letter said he had captured Father Heslin by hitting him on the head and knocking him unconscious. The letter declared Father Heslin was hidden in a bootlegger's cellar and that he would be burned alive or suffocated if the ransom was not paid. However, this statement is believed to be false, or merely a blind to conceal the fact that the victim has been carried to some lonely spot in the woods for safekeeping.

80TH DIVISION VETS MARCH IN PITTSBURGH

Ex-Soldiers From Many States Take Part In Last Day's Program

Pittsburgh, Pa., Aug. 6.—Thousands of heroes of many engagements in French battle sectors, members of the Blue Ridge Division, marched between thick walls of humanity here today as part of the four day program of the 80th Division's second annual reunion. Soldiers from West Virginia, Virginia, and Pennsylvania were again mobilized, and practically every State in the Union was represented in the long line of march today. The men will disband tomorrow.

President Harding And Party Start On Trip To Washington

Lancaster, N. H., Aug. 6.—President and Mrs. Harding left here today by motor for Portland, Me., where they will board the Mayflower tonight for the return trip to Washington. The President, who started out to enjoy a quiet restful vacation, concluded his trip by setting as strenuous a pace as he ever did during his campaign days, covering 200 miles of twisting mountain roads on the last day.

Rail Claims Denied By Committee

Washington, D. C. Aug. 6.—The Interstate Commerce Commission today denied the claims of the railroads that the government compensate them for loss of efficiency of rail labor which was alleged under government control.

BASKET PICNIC CLEAN-UP DAY AT GRAMPIAN

Yesterday was a big outing and work day combined for the folks in and around Grampian. Shortly after 7 o'clock in the morning people began to put in their appearance at the Grampian Fairgrounds and before the sun was very far on its course over 200 were busily engaged in cleaning up the grounds.

At noon the work halted long enough to permit the workers and their families to partake of a basket lunch, and then the day's labor was resumed, most of the workers knocking off at 5 o'clock. A considerable change in the looks of the fairgrounds was reported.

Among the improvements being made is a 220 yard cinder path for athletic events.

PLAN HOLD UP OF TAX REPEAL PREPARATIONS

Washington, D. C., Aug. 6.—No taxes can be repealed before January 1, 1922, Republican members of the House Ways and Means committee tentatively decided today. If this plan is finally enacted business men and wealthy individuals during the calendar year of 1922 will have to pay the excess profits and high surtaxes of 1921. It had previously been planned to repeal these taxes as of January 1, 1921, thus lifting these levies after corporations and individuals had made preparations to meet them.

YOUNG NURSE EMPTIES REVOLVER INTO BODY OF PROMINENT LAWYER

ELLIS KINKEAD SHOT WHILE WIFE SITS IN NEARBY WINDOW

New York, N. Y. Aug. 6.—"How is Mr. Kinkead this morning?" was the first question Miss Olivia Stone, of Cincinnati, asked when she awoke in her cell here today. She had not been informed that a bullet which was fired at Ellis Guy Kinkead yesterday had caused almost instant death, and thought him merely wounded. Miss Stone, who claims to be Kinkead's common law wife, will be arraigned in Brooklyn court this morning on a charge of murder.

Killed in Sight of Home
She killed Kinkead on a street corner near his apartment, calmly walking up to him and emptying a revolver into his head and body. A policeman seized her as she was still snapping the empty revolver at his prostrate form. Mrs. Kinkead, who was formerly Marie Gormly, of Cincinnati, was sitting in their apartment so close by that she heard the shots and noticed the people running. She started to the street to see what had happened but neighbors kept her from going to the spot where her husband's body lay on the sidewalk, his head lolling in the gutter.

Thought Him Only Crippled
"How did you know where to shoot him?" Miss Stone was asked. "I am a graduate nurse" the woman replied. "I know every vital spot." She fainted after shooting Kinkead and on regaining her senses was informed her bullets had merely crippled him. "I would like to go to the hospital and laugh at him," she cried at first. A few minutes later she asked to be permitted to go to the hospital to nurse him.

Mrs. Kinkead told police that Miss Stone had been annoying them for months and had tried to get her husband to leave her. She claimed that the last several days a strange woman, whom she believed to have been Miss Stone, had been loitering on the streets near their residence for hours at a time.

Osceola Priest Dies Today In Local Hospital

Rev. Father Carpenter, pastor of the Osceola Catholic church, who has been a patient in the Clearfield hospital for the past five or six weeks, suffering with an attack of typhoid fever, passed away at noon today. His remains were taken to Osceola this afternoon.

Father Carpenter was about 45 years of age and had been stationed at Osceola the past couple of years.

"Bootleggers Bund" Busy Again—Two Pinched Today

Sheriff Tipped Off On Booze Purchase Grabs Peddlers and Hootch Supply

Bootleggers have one thing in common with ordinary human beings—they are a jealous lot, and don't like to see the other fellow get the money. Here's the why of it.

A couple of Clearfield Italians went over to DuBois last evening for the purpose of securing a supply of moonshine liquor. They visited a couple of manufacturers or recognized dealers in "white mule" in the third city and after much higgling or haggling over price are alleged to have finally contracted with Alex Thomas, a Syrian, for seven gallons of able-bodied "Albino Jackass."

Competition Fierce.

The competition among the moonshiners was so fierce that in order to clinch the bargain Thomas made his price f. o. b. Clearfield, and right there was where he made ze one grande mistake. His rival in business, when he found Alex had made the deal,

PLAGUE WAVE SWEEPS FIVE NEW RUSSIAN DISTRICTS-- LOOTERS FOLLOW WAKE OF PESTILENCE

Reval, Russia, Aug. 6.—The cholera death wave is sweeping five new Russian districts, taking a heavy toll of life. The epidemic has invaded 24 provinces. One hundred fifty thousand victims were reported to have died in two towns in two months. Fifty-two thousand were children.

Descriptions of the terror following the plague deaths were contained in dispatches received here today.

Looters Busy

Gangs of looters are following the rail of burning homes which have been fired by occupants when deserted. Armed bands enter homes of those who might have food and steal anything they can find.

A band of fugitives approached Moscow and was refused entrance. One report stated cordons of troops armed with gas bombs, surrounded them and drove them back.

ENGINE BREAKS DOWN-TRAIN IS HELD UP

A freight engine broke down on the B. R. & P. railroad at Bloom's Run, six miles beyond Curwensville this morning and the morning passenger train was held up for three hours behind the wreck.

The New York Central wreck train was called to remove the obstruction and allowed the team to get into Clearfield at 11 o'clock.

COUNTERFEITING MYSTERY NOW CLEARED UP

Pittsburgh, Pa., Aug. 6.—Mystery surrounding the appearance of a large number of Federal Reserve bank notes which had been raised from \$1 to \$10 is cleared up by the arrest of Earl Geer, age 35, of Johnsonburg, Pa., according to Secret Service Operator James Tierney, in charge of the Pittsburgh office.

Secret service men were mystified by the appearance of the bills in almost every city in Pennsylvania and despite efforts to locate the persons responsible had a futile search. Roy Wertz was arrested at Falls Creek recently, and Operator Tierney announced several of the raised bank notes were found in his possession. A large force of operators was sent to Falls Creek and an investigation revealed that the bills had been altered in Geers' home, Tierney alleges.

Confined In Jail Here.

Wertz, it will be remembered, was arrested in June and brought to the Clearfield county jail for safekeeping. He was taken to Pittsburgh by U. S. Marshal Short early in the week.

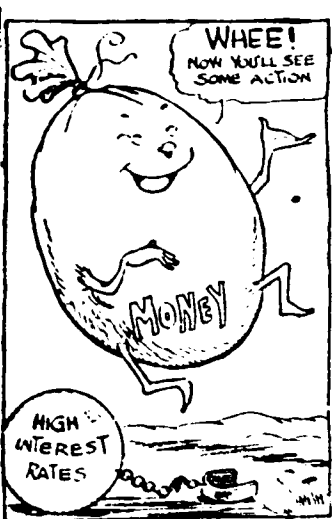

AMERICAN LEGION BAND DELIGHTS BIG AUDIENCE

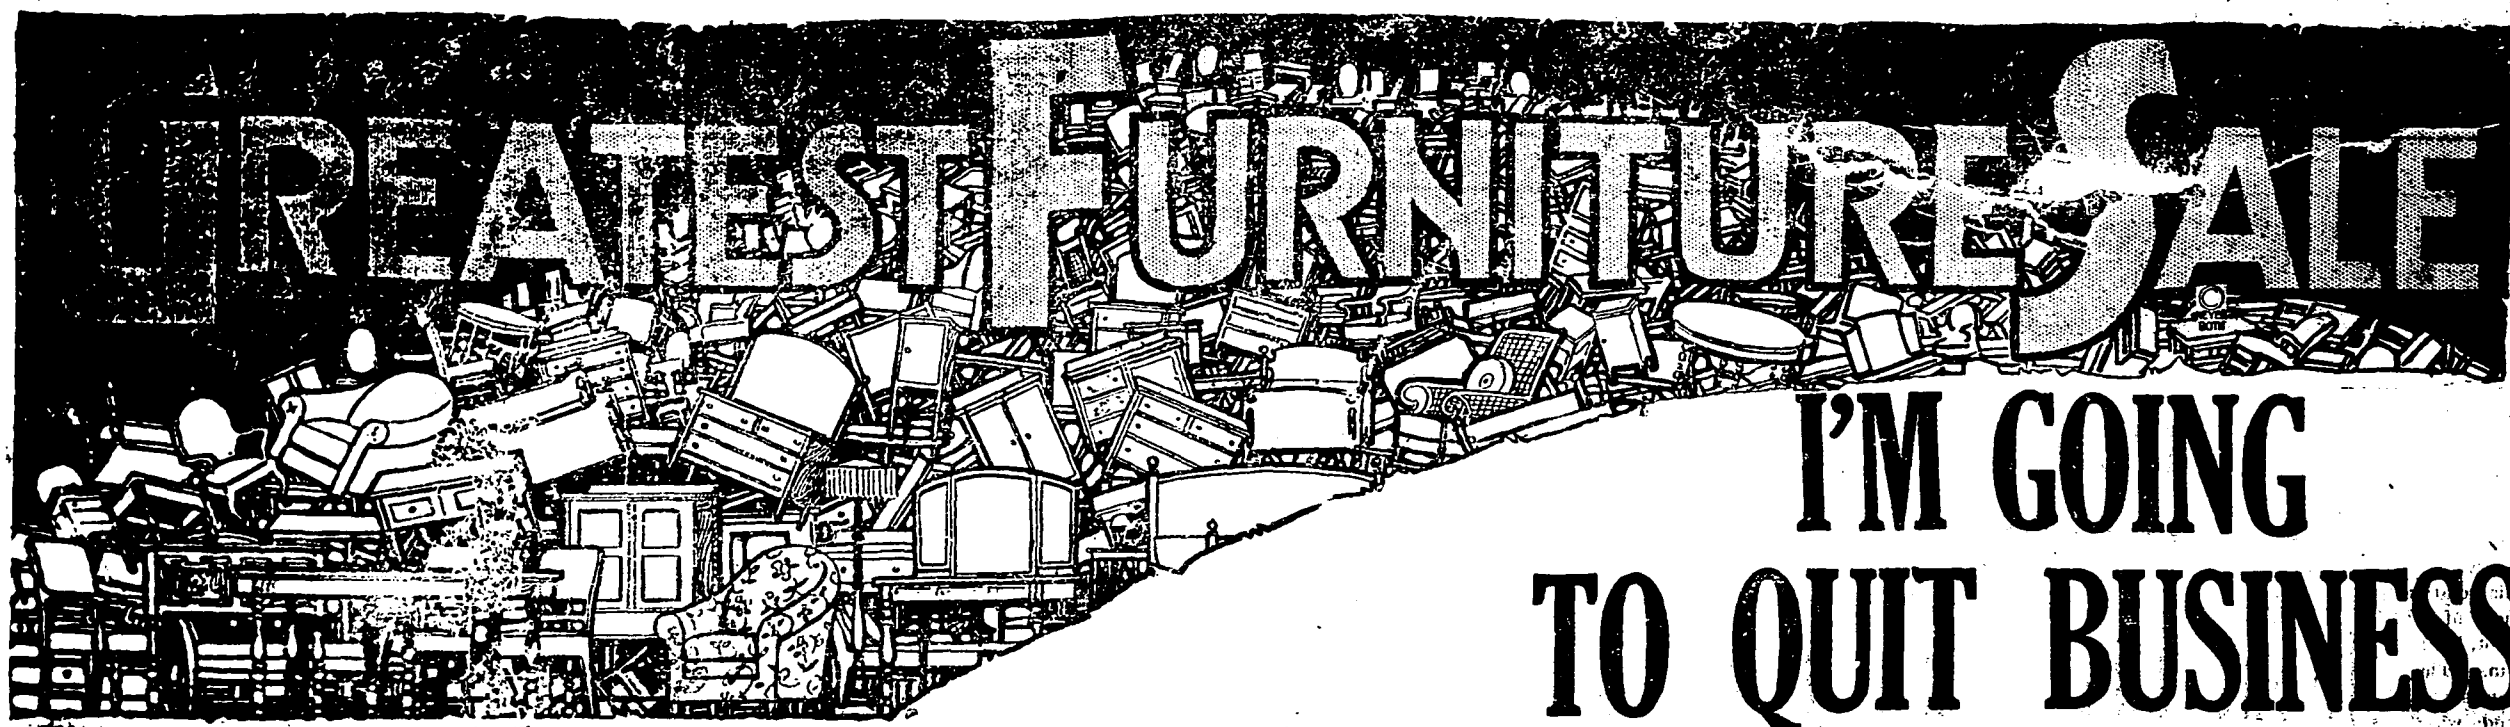

The American Legion Band gave a delightful concert at Mineral Springs park last evening. There was a large crowd of Woodland people in attendance and everyone expressed great pleasure at the splendid program rendered and also had much praise for Director Thayer and the band for providing such a fine entertainment.

Will Play At Red Men's Convention
The local American Legion Band has been engaged to accompany Chinleclamoose Tribe of Red Men to the Convention at Curwensville on August 17th and will also accompany the Clearfield Fire Department to the District Firemen's Convention at Philipsburg on August 18th.

ODDS AND ENDS AND THINGS

"By Skinny"

"Smilin' Sid" Hatfield, the police chief of Mottewan, W. Va., who got into the newspaper: adversely when he interfered with the operations of gunmen-detectives against defenseless women and children in his bailiwick, died the other day by the bullets of an assassin. The smiling but fearless young West Virginian, whose notoriety and besmirched reputation was largely due to paid propaganda and his relationship to "Devil Anse" Hatfield of feud fame, was waylaid and shot, his friends claim, by hired assassins. They claim proof for their contention by the fact that Hatfield's body was riddled by ten bullets, while his assistant and companion, Ed Chambers, was hit by no less than eight bullets. "Sid" Hatfield was a brave, fearless officer in a country where a stout heart was needed. He was unheard of outside of his own community before the Mingo mine war; he is a martyr to the wrong method of conducting or settling industrial disputes and his murder is a foul blot on the escutcheon of West Virginia and should be avenged by the law.

It is not so very long ago that the people of these United States held up their hands in holy horror at a "billion dollar congress" and voted out of power the party whose representatives in congress voted such enormous appropriations. How things have changed? The cost of running the United States Government for the current fiscal year will be \$1,550,000,000, of which \$3,830,000,000 must be raised by taxation, Secretary of the Treasury Mellon declares in a revised statement submitted to the House Ways and Means Committee.

Those dry legislators of Wisconsin are so "set" against the saloon and all its works that a recent law abolishing bars provides that even the purchasers of non-alcoholic drinks must stand far enough away from the counter so that they can neither raise a foot to the rail nor set down their glasses. Verily, gone are the days of the old brass rail.

The way America appreciates her service men is concretely illustrated in the treatment given Sergeant Alvin York, the red-headed Tennessee mountaineer who was an outstanding hero of the World war. Sergeant York was dined and feted upon his return. His admirers started to raise funds with which to buy him a farm. The funds did not come in as generously as was expected and enough was received to buy a small farm, but instead of buying such a place those in charge bought the Sergeant a big farm and hung a \$12,500 mortgage on it. Now the farm can't support the mortgage and the Sheriff is threatening to sell the whole thing for interest on the mortgage. Republics and the people thereof are indeed ungrateful.

A Philadelphia doctor is out with his hammer against the powder puff. He says seventy-five per cent. of the women of the country are suffering from various degrees of irritation of the septum, the bony cartilaginous piece that separates the nostrils. It comes, this wise man asserts, from the over-liberal use of the powder puff, and this "deadly weapon" should

POLITENESS PAYS SAYS TRAFFIC COP

Has Twenty-Five Bucks
To Prove The Correct-
ness Of His Assertion.

Chicago, Ill., Aug. 5.—The wise man is polite to the traffic cop. By the law of compensation, the wise traffic cop should be polite to the passerby.

Patrick F. Sheehy, traffic officer No. 4598, believes that this statement works both ways. He has \$25 to prove it.

When Patrick was given his whistle and a busy corner in the Chicago Loop he had a pretty good training in traffic regulations. But one day he read in a magazine about a bride who was embarrassed because she didn't know which foot to put first in walking down the aisle to the altar. The left foot is correct of course.

"So I started to study etiquette. Now I am sure of myself, and whenever a motorist attempts to get past me, I never lack words to tell him about it."

Sheehy is given credit for being the "politest policeman" in Chicago police headquarters and in the Chicago police bulletin. Another reward came the other day, and Sheehy said it happened like this:

"A man came up and asked me where he could buy a box of grapefruit and a cheap straw hat. I told him. Then he asked me how high the Masonic temple was, and I told him. I was going to tell him some interesting stuff about the League of Nations, and the Panama Canal, but he wouldn't listen. He went away and came back in a few minutes with \$25."

Marconi has so perfected his wireless telegraph that it is now possible to talk faster than a woman—by electricity, of course. The new improvement makes it possible to "shoot" from 200 to 300 words a minute across the Atlantic.

That all-dearable "kick" must be had, regardless of how, when or where. The American soldiers, deprived of their hootch, are now getting the desired exhilaration from smoking marihuana, a Mexican herb, which has potent powers. So widespread has become the habit that Army surgeons are investigating the stuff.

Kings and Emperors may be considered a luxury even though relegated to the scrap heap. The defeated and defunct Kaiser Wilhelm, interned in Holland, cost the war-impoorished German people \$854,000 for his upkeep the past year. The Kaiser also threatens to go back to Germany if more cash is not soon forthcoming.

Wayne B. Wheeler, general counsel for the Anti-Saloon League, is peeved over the fact that prominent Englishmen coming to this country always knock prohibition, the latest to offend in this regard being Lord Northcliffe. Wheeler returns "good for evil" in the following declaration:—

"If Americans were as critical of England's drink policy as many visiting Britons are of American prohibition, we could easily suggest that if England would only stop its enormous drink waste of nearly \$2,000,000,000 annually it would no be so very difficult for her to meet her interest payments upon her foreign debts."

Unidentified Man Killed

Altoona, Pa., Aug. 6.—Trackmen going out for their day's work yesterday morning at 6:30 o'clock found the remains of a man about 55 years old, papers found on his person leading to the belief that it is the body of William Scott, address unknown, along the Pennsy main line while trespassing on the railroad.

The body was badly mangled, with deep cuts on the head and the right arm severed between the shoulder and the elbow. The torso was also badly cut and bruised and death is believed to have been instantaneous. The man wore a dark suit, had dark hair and mustache. A label on the clothing showed that it had been purchased in Philipsburg. When Coroner Rothrock examined the body at this city he found a pay envelope inside the coat made out to William Scott and indicating that it had contained the sum of \$16.49, the payment having been made July 15, 1921.

STATE COLLEGE SUMMER STUDENTS LEAVE FOR HOMES

State College, Pa., August 6.—About half of the student enrollment of the Pennsylvania State College Summer Session left the college for their homes today, following the

completion of the first six weeks of the school. Most of them are the elementary school teachers who have prepared for teacher examinations. The original enrollment of 1900, a record for Penn State, included 1000 school teachers, and a thousand of these attended their last classes yesterday afternoon. Those remaining will take advanced work with about 300 regular students of the college, in classes that will continue until August 26.

Los Angeles, Cal. Aug. 6.—John Kennedy, a wealthy Los Angeles insurance man was mysteriously assassinated at midnight last night near his summer cottage Beverly Glenn. Kennedy and a woman companion were mounting a stairway leading up to the cottage when a dark figure ran from the brush and blew off the back of Kennedy's skull with a single charge from a shotgun.

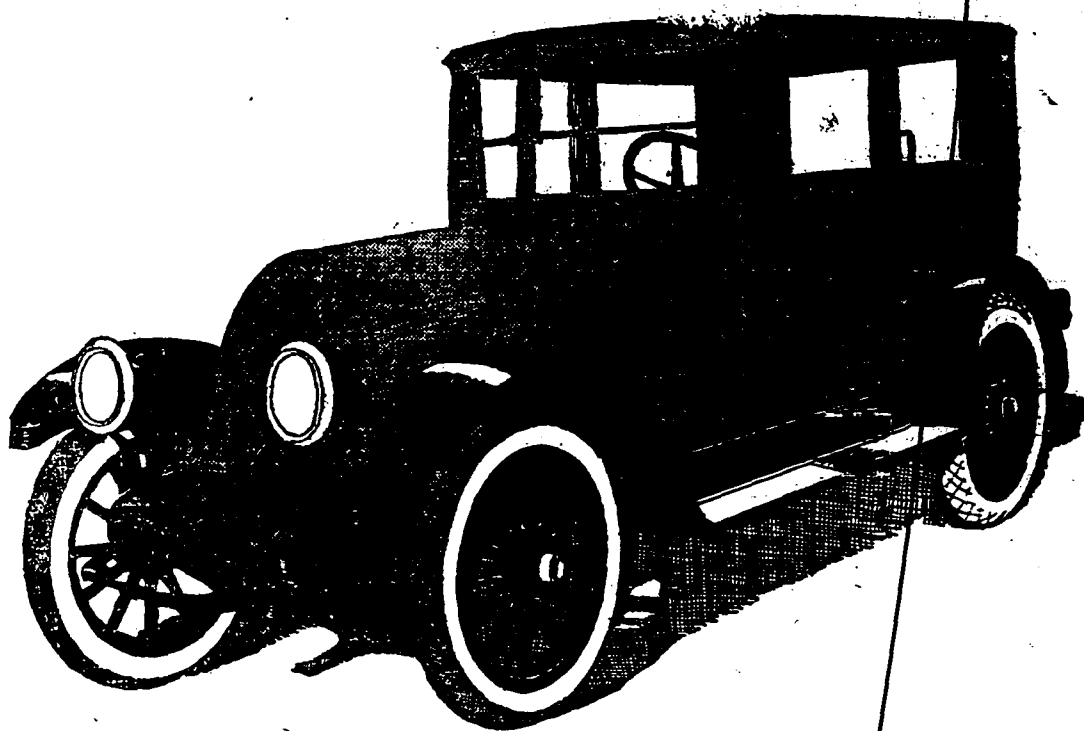

Mustn't Expect Too Much.

A United States senator had just finished a night's work on a speech. "You have convinced me," said his secretary, "except for one trifling detail. Where do I, the man who has to buy meat and bread, get off?" The senator touched his nose with his finger and replied sagely: "Well, no legislation is 100 per cent perfect."

The FRANKLIN

—and the Country-wide Interpretation of Common Sense Economy

THERE is today a more common sense attitude toward economy than the old rule of clamping the lid tight on expenditures and doing without.

Department stores generally report bigger sales than for the same period last year. But they also report a different kind of buying—careful, thoughtful shopping for values.

The same care is just as noticeable in automobile purchases.

For the past seven months the Franklin has been selling two and one half times faster than the average of all other cars in the industry.

This exceptional support of the only automobile which has consistently claimed economy as a major virtue for twenty years shows this change in point of view.

Before the automobile became a national utility—both business and social—any demand to cut down waste was met with suspended or restricted use. That doesn't answer today, as a more sensible interpretation of economy is necessary.

People must be even more active and less wasteful. And no car qualifies which does not meet the requirements of economy without restriction of use.

More than ever people are looking to the figures of performance for the actual story of a car's comfort, economy, reliability and freedom from trouble. And they are finding ample basis for confidence in these Franklin owners' results:

20 miles to the gallon of gasoline
12,500 miles to the set of tires
50% slower yearly depreciation
(National Averages)

Back of these figures is a long history of efficiency based on the correct principles of light weight, flexible construction and direct air cooling, together with quality materials and workmanship.

The Franklin meets the situation of today 100%. Arrange for a demonstration and check up the reasons for yourself.

Did President Harding strike the keynote of the coming disarmament conference in his address to several hundred disabled soldiers at the Gorham, N. H. government hospital Friday? One of the notes struck during the course of his remarks seems to settle once and for all his chief aims in the proposed conference. "Not a surrender of nationality, nor a surrender of our liberties or our rights to determine the way we will pursue, but to remove the reasons for war and put an end to costly armament," he declared.

In this the chief executive shows a world of judgement, and leaves little room for doubt as to the motives which inspire him to become the prime mover and leader in what will undoubtedly be one of the greatest humanitarian and economical steps taken since the birth of civilization. He sums up his attitude in few words.

"I would like to have a little less, or much less, destruction and more resources for construction in America. I would like to have less of toil to maintain armies and navies and more of play to hearten the American people. I do not believe the best of success comes out of the constant grind," he declared. With these ends in view President Harding will undoubtedly have the support of the majority of the people in the civilized world. He has no record of being a politician, in the main sense of the word, and his aims will have more weight in connection with the conference, even though he be not present, than would have been possible had the move been promulgated by one of the Old World powers, where diplomats are wont to regard each other with deep and undying suspicion.

Have we been living in a Fool's Paradise these last few weeks? Have we been deluding ourselves with the belief the economic condition of this country is improving. If we have, it might be well to glance over the employment figures published by the Department of Labor for the month of July. These figures show despite prevailing belief in many sections that the employment situation has loosened up, due to adjusted wages, and better buying, just the reverse is a fact.

They state that employment throughout the United States fell off 1.1 per cent during July, and this in the face of the fact the harvest season is at hand. With winter coming on it is time to settle down to the idea of re-adjusting conditions. Winter is the time for the full flour barrel, and unless some sort of adjustment is made soon a good bit of the wheat and supplies that are now destined to be given away to relieve suffering in Soviet Russia may be required right here in the United States.

In these days of anti-everything, with the reformers hot on the trail of every joy, there is still one thing left to be thankful for. Despite the fact they have trailed every other form of "amusement" to its lair, and regulated and revised it to suit their individual and collective tastes, the reformers have been unable to touch our one and apparently only unregulated prerogative—that is, to kick and complain about each and everything, when and whenever we feel like it.

Just imagine what this world would be like if we were denied the enjoyment of relieving our feelings with a well versed complaint whenever we are peeved enough, in our estimation, to do so. What would happen if we couldn't kick about the election—about the ball game, the umpire, and the fellow who struck out with three on base and two down—about the size of the ham sandwich the lunch counter man slides across the marble to us—about the butcher, the baker, and all the rest, not to mention the blamed newspaper editor who gets our name all mixed up in the paper, or our wives when they roll us out of bed at six bells when we have just rolled in about two hours before.

MRS. FRANK COLEGROVE
August, residing near Patton, and Miss Ella Colegrove of Clearfield, the deceased daughter was Mrs. C. R. Randecker, of Lock Haven.

Mrs. Colegrove united with the Methodist church in early girlhood, and was a good Christian woman. Her many excellent graces won for her the fond regard of a large circle of friends, by whom her death will be greatly mourned.

The funeral took place this afternoon at 1 o'clock, with interment in the Bigler cemetery.

Mr. and Mrs. C. M. Shaw and Mrs. Council motored up from Pittsburg Thursday and are spending some time with relatives and friends here.

Miss Margaret Connelly is visiting relatives and friends in Butler.

THE BUSINESS MAN'S BANK

While its service is so flexible as to suit the requirements of any customer, the County National is primarily a commercial bank.

Its connections with the great banks in the cities, and through them with the entire World enables it to give the business man any service he may need.

It has invested capital and resources make it possible to lend customers as much as they require.

Many of the progressive business concerns of Central Pennsylvania find County National Service entirely satisfactory.

You are invited to test it.

Thankful Lady Praises SimcoSalve

Says she thinks it is a wonderful remedy for sore throat, cold on the lungs and pneumonia. Mrs. Gertrude M. McPherson, 5642 Kirkwood St., Pittsburgh, Pa., says: "My fever was so high I felt as though I was burning up, my throat and lungs were terribly sore and my chest hurt when I touched it. I felt sure I was suffering with the first stages of pneumonia. Some of my friends told me that SIMCO SALVE was a wonderful remedy and I found this to be true for the next day after I had used it I felt much better, my fever was nearly all gone and in less than a week I felt entirely well. SIMCO SALVE is manufactured by the Wm. M. Simpson Drug Co., Wilkensburg, Pa., and is for sale by all druggists."

THE UNIVERSAL CAR
ABOUT FORD CARS—SOLID LOGIC

The Ford Car has been fundamentally right from the beginning. That fact made it "The Universal Car." It has always led in lowest first cost as well as in lowest cost to maintain and operate.

Runabout, Touring Car, Coupe, Sedan, Truck and Fordson Tractor—we have them all and will make reasonably prompt delivery.

Simplicity has ever marked the designing and building of Ford cars, trucks and tractors. Henry Ford and his engineers have always striven for simplicity with strength. The success of the Model "T" Ford car and a great part of the Ford Motor Company's success has come from an early understanding and appreciation of that principle in motor car construction. The fewer the parts in a car, the fewer the parts to go wrong. When that simple truth is carried out in producing a car, as it is in Ford cars, trucks and tractors, the result is bound to be a simplicity of design and building that means simplicity, durability and economy of operation.

This simplicity of construction proves itself in the ease with which Ford cars, trucks and tractors are driven. Four million five hundred Ford cars in daily service proves every claim we make.

More than ever we are sure the Ford car is your necessity—let's have your order today.

AN OPEN LETTER TO WOMEN

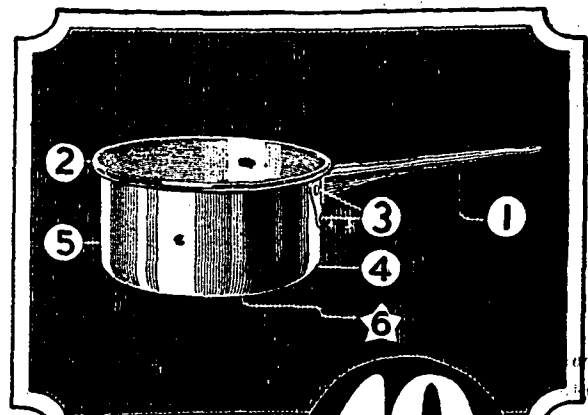

Mrs. Little Tells How She Suffered and How Finally Cured

Philadelphia, Pa.—"I was not able to do my housework and had to lie down most of the time and felt bad in my left side. My monthly periods were irregular, sometimes five or seven months apart and when they did appear would last for two weeks and were very painful. I was sick for about a year and a half and doctored but without any improvement.

A neighbor recommended Lydia E. Pinkham's Vegetable Compound to me, and the second day after I started taking it I began to feel better and I kept on taking it for seven months. Now I keep house and perform all my household duties. You can use these facts as you please and I will recommend Vegetable Compound to everyone who suffers as I did."—Mrs. J. S. LITTLE, 3155 Livingston St., Philadelphia, Pa.

How much harder the daily tasks of a woman become when she suffers from such distressing symptoms and weakness as did Mrs. Little. No woman should allow herself to get into such a condition because such troubles may be speedily overcome by Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring American women to health.

STATE HIGHWAY DEPARTMENT ISSUES LIST OF STATE CAMPING GROUNDS

MANY INQUIRIES DIRECTED TO VARIOUS ORGANIZATIONS CAUSES DEPART- MENT TO MAKE UP DIRECTORY OF PICNIC AND CAMP SITES

Harrisburg, Aug. 4.—The State Highway Department has received hundreds of inquiries in this and other states relative to possible camping sites on the highways of Pennsylvania. As a result of inquiries directed to various organizations, it finds that very few municipalities provide such sites and there are comparatively few locations in the state specifically set aside for the use of travelers.

There are no established camping sites in the vicinity of Philadelphia, the Chief of the Bureau of City Property giving the information that there are no suitable locations. There have been camps, however, on city properties adjacent to the city farms at Byberry. The Automobile Club of Philadelphia informs the Department that it is taking up with the proper authorities the question of providing camp grounds on Roosevelt Boulevard.

On the Lincoln Highway between Juniata crossing and a point four miles west there are scores of camp sites along the Juniata River and these are frequented by large numbers of tourists. There is also a camping site immediately east of the bridge at Juniata crossing. There is also an available site about two miles east of the town of Bedford. At numerous places between Philadelphia and Pittsburgh on the Lincoln Highway there are private land owners who permit tourists to occupy their grounds over night or for several days.

At Shippensburg motor tourists are permitted to use the lots of the West End Land Company at the extreme north end of Lurgan avenue. This is the first street north of the Reading railroad overhead bridge.

In the vicinity of Washington, Pa., there are no municipal camps, but agriculturists permit the use of their lands.

At Wayneboro the Waynesboro Motor Club has secured a camp site one mile west of the town adjoining the old C. G. and M. turnpike. A sign has been placed on this property advising tourists that they may use it.

At Lake Side, four miles from Mahanoy City, and six miles from Tamaqua, there are camp sites near a very nice body of water.

Good Places In This Region.

On the route between Tyrone and Clearfield there are numerous camping sites in the mountains and there is a particularly fine place five miles south of Osceola Mills, just above Sandy Ridge. This has excellent water.

The Hazleton Motor Club declares that there are numerous places in that section of Pennsylvania in which travelers are permitted to erect tents without cost.

In the vicinity of Renovo there are no regularly set aside locations, but travelers are urged to make use of numbers of splendid camp sites.

The Youghiogheny Automobile Club

Stroudsburg to the Poconos, there are camping sites for which the owners exact a small fee.

The Corry Motor Club informs the Department that there are many places east and west of that city at which owners of property are glad to grant permission to use their grounds for short camping periods.

In the vicinity of New Castle rural school lots are used by campers and there are also a number of other locations.

The Pleasantville Motor Association, in Venango County, is arranging for camping sites.

The Motor Club of Lackawanna county is arranging to open camping sites in that section.

There are free camping sites on all highways leading into Wilkes-Barre and the Wyoming Valley Motor Club will furnish information concerning them.

Other camping sites are located in the vicinity of Leechburg, Greenville, Reading and Quakake.

The Automobile Club of Maryland, Baltimore; the Delaware Automobile Association, Wilmington; the Automobile Club of New Haven, Conn.; the Wheeling Automobile Club, West Virginia; the Automobile Club of Corning, N. Y., and the Schenectady

Automobile Club, advise the State Highway Department of Pennsylvania that there are free tent sites in their cities, concerning which they will be glad to advise tourists.

It is urged upon all users of sites that they gather up waste paper and other debris upon leaving.

Why We Say "She."

The discussion being on why we refer to an automobile as "she," one man said it was because when a car is sicked up and attractive we all admire her; when she acts properly she is charming; yet we often drive her into improper action by lack of care, and when she gets old and has lost her style we try to discard her and get a more pleasing one.—Boston Transcript.

Explaining Dream of Wolf.

To dream of a wolf signifies business relations with one who is unprincipled and cunning. To be pursued by one denotes much sickness to the house, but if by many long life and health.

This Sale Inaugurates A Series of August Sales Where- in We Start To Clear Decks For Fall

All through the dry goods section and the shoe section, these are days of hustle and bustle, clearing away the odds and ends of the summer season's selling. The activity has made itself apparent in that new prices have appeared on many items that should be gotten away before the new Fall stocks arrive.

The Shoe Section Shows Cuts That Will Appeal

All sorts of summer shoes have come in for this general price cutting and you'll find that stocks in some lines are far more complete than you'd expect for the time of the year. They are all shoes and low-cuts that you can use for many weeks yet, too.

He had been around at the various places where he sold merchandise in this city and was a good judge of stocks. He was very frank in his statement that our stocks were the widest and prettiest that could be found anywhere in this city.

Summer Voiles and Dimity Must Be Cleared Out Now

They are materials that we can not afford to carry over into the Fall or Winter season and we have marked them at prices that will surely mean a big saving to you.

EMBROIDERED VOILES. These are dotted voiles that had the call so much. They are 36 inches wide and formerly sold for \$1.25. They're yours now for \$1.00.

DIMITIES. There is a wide variety of colors here and you'll find one or more patterns that will strike your fancy. They run 36 and 38 inches wide and formerly sold for 60c. They're now yours for 45c.

These White Wash Skirts Will Sell Quickly At A 25 Per. Cent Reduction

There are only a few of them and they must be sold before the wash skirt season is done. The styles are snappy and the materials will stand tubbing for many months.

Turkish Towels At Half Price

This is an opportunity and no mistake. They're good big towels, ones that will come in great these days when the bathtub is a welcome spot.

PAIGE

The Most Beautiful Car in America

It is Changing Buying Habits

The Paige 6-66 model is a truly great motor car because it represents a great economic achievement. It means maximum motoring qualities at minimum cost.

It means sane, sensible investment value instead of extravagance. Therefore it has changed, and will continue to change, buying habits in the fine car field of America.

You have but to look about you for the evidence. The boulevards tell the story. For more than 25% of our total sales have replaced cars costing from one to three thousand dollars more than the Paige.

In short, the fine car buyer has grown weary of paying "excess fare." He now cuts his investment in half—and drives the undisputed champion of road and track. Think it over.

SINGLE ADMISSIONS TO EACH SESSION TOTAL \$9.00

Buy a Season Ticket and Save \$6.50

Honestly, Now, did you ever think of what you get for your money by throwing your hearty support---\$2.50 worth---toward bringing this wonderful series of lectures and musical numbers to Clearfield? Did you ever stop to consider that you'd pay the price of a season ticket for any one of these attractions if they came to the Opera House, during the show season? You did this very thing last season when the DeFeo Opera Company was here.

Now, here comes a series of really instructive lecturers and pleasing musical numbers and the wonderful Junior Chautauqua with its influence on the kiddies--your kiddies if you please---and you can get ALL of these attractions for the small sum of \$2.50 for grown-ups and a less sum for your kiddies. Can you afford to allow the sessions of the Swathmore Chautauqua to be taken away from this city? YOU CAN NOT! Your interest in your own kiddies precludes such an idea. Then---what do you know about the conditions that exist in Russia? Don't care? Well, the boys went over and fought a couple of years ago because they cared. Dr. Zillboorg's lecture alone will give you \$5.00 worth of enlightenment on this wonderful Russia that is just struggling to find the light.

Sum this all up---read the program and see what you get, the music the instructive lectures-- the happy, happy hours for the kiddies. Honestly, now, IS IT FAIR to have the Guarantors Pay For Your Entertainment and Instruction?

THE BOYS WHO BUST THE FENCE

THE CLEARFIELD TERRIERS

The boys who represent Clearfield on the diamond this season. Reading from left to right: Top row.—Hopper, c; Farring, p; Breckenridge, p; "Sheriff" Riley, scorekeeper; Farrell, utility infielder; Taylor, p; Wolfe, 3b; Russell, c. Bottom row.—Fileshifter, p; Zerfluh, ss; Kane, cf; Anderson, lf; Manager "Izzy" Hoffman, rf; Seigfried, 2b; Joe Harris, 1b.

Indiana Team Is Trimmed By The Terriers To 2-1

The right nifty Indiana baseball club met Clearfield's Terriers on the local grounds yesterday afternoon and made Magr. Hoffman's "hired hands" hustle some to come home in front, the final score being Clearfield, 2; Indiana, 1.

Johnny Meader Performs

Johnny Meader, our newest pitching acquisition, was selected by Manager Hoffman to do the twirling and he performed very capably. He held the "Buckweaters" to four singles and deserved a shut out, but two errors and a single in the seventh allowed Indiana's solitary tally to trickle across.

Lefty Hughes Real Pitcher.

Lefty Hughes, Ambridge's star twirler before that team gave up the ghost, was on the mound for the visitors. He was wild as a Russian Bolshevik, but when he did locate the plate was a puzzle to everybody but Harris and Yerkes. These two "master carpenters" were the architects and builders of our two runs. In the second inning Harris singled and stole second, counting on Yerkes' single. Steve also negotiated second by the larceny route, but was thrown out at the plate on Zerfluh's hit to short.

Harris again singled in the sixth, went to third on Yerkes' second single and scored when Hughes wild-pitched one which hit the plate and got away from the catcher.

Old Favorite In Lineup.

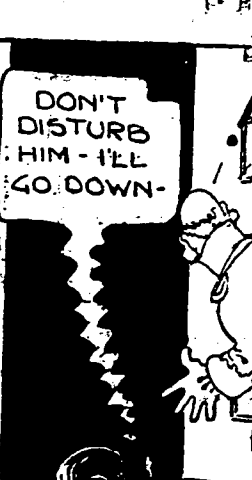

Indiana presented a fast team. Among their most capable performers was Joe Wilson at first base. Joe has been making baseball history in these parts for more years than he would like to admit now, and is playing a better game this season than ever before.

"The Sin That Was His"

By FRANK L. PACKARD

An epic of the screen portrayed by America's most distinguished actor in which is shown the mental and spiritual transformation of "Two Ace Artie," Card Shark, Bad Man and Unbeliever, into Raymond Chapelle, the Devout.

A master story written by the author of "The Miracle Man" and staged by a genius of scene-craft.

The story of how the "still small voice of conscience" rang like a clarion call and awakened a soul that slept.

It's a PLUMB

The Hammer of Experts

Hammers are of a close kind. To get the most out of them would do the Plumb the users and from them what they required in a hammer. Hence the features that belong exclusively to Plumb Nail Hammers—the larger striking face with the weight centered in a chunk behind it—the claws with the extra curve—and short split-giving extra leverage—the nipper-like edges that grip and hold any nail, big or little.

Note the famous Plumb Hand Comfort Handle that never tires or cramps—another exclusive Plumb superiority. This handle is made from heavy selected hickory, chemically treated and beautifully mahoganyized. Note the handsome Hand-Forged, Non-rust Finish that preserves the head from tarnish. Remember the tapered eye anchors the head firmly on the handle.

Cause of earth's fragrance.
The real cause of the peculiar fragrance of the earth, which is noticeable especially in the spring and after rains, has been found by recent experiments. It was formerly explained as a result of certain chemical decompositions, but has now been discovered to be the emanation of thread bacteria, of which two species are particularly odorous. Not only do the bacteria isolated from the soil have the earthy fragrance, but they retain it when cultivated on very varied substances, even on such inorganic materials as pea soup, milk, glycerine and starch paste.

Just Punishment.
The cunning of the infantile mind was illustrated the other day when a 3-year-old who had been informed that when he was a bad boy a little bird told his father, and if the little bird did not happen to be around, by the flies around the house, which acted as the bird's agent, triumphantly brought two dead flies to his mother. "I killed two agents!" he cried with much pride. "Now they dussent tell daddy on me!"

IMPROVED UNIFORM INTERNATIONAL

Sunday School 'Lesson'

(By REV. F. B. FITZWATER, D. D.,
Teacher of English Bible in the Moody
Bible Institute of Chicago.)
(© 1921, Western Newspaper Union.)

LESSON FOR AUGUST 7.

PAUL IN CYPRUS AND IN ANTIOCH OF PISIDIA.

LESSON TEXT—Acts 13:1-13.
GOLDEN TEXT—Ye shall be witnesses unto me both in Jerusalem, and in all Judea, and in Samaria, and unto the uttermost part of the earth.—Acts 1:8.

REFERENCE MATERIAL—Matt. 13:31-33; 23:18-20; Mark 16:15; Luke 24:46, 47.
PRIMARY TOPIC—Adventures of Paul and Barnabas.
JUNIOR TOPIC—Saul Silences a Sorcerer.

INTERMEDIATE AND SENIOR TOPIC—Paul Begins His Missionary Travels.
YOUNG PEOPLE AND ADULT TOPIC—Paul Becomes a Missionary.

This marks the beginning of foreign missions as the deliberately planned enterprise of the church.

I. The Gifts of the Church at Antioch (v. 1).

Young as Antioch, the new religious center, was, she had prophets and teachers. Such are essential to church life. Indeed, they are never absent from the true church. In Ephesians 4:8-12 Paul says that when Christ ascended he gave gifts unto men for the purpose of perfecting the saints unto the work of the ministry.

II. Barnabas and Saul Sent Forth (vv. 2, 3).

While the five ministers were praying and fasting, the Spirit of God commanded them to send forth Barnabas and Saul. The work of evangelizing the world was laid, so heavily upon these men that they refrained from eating in order to seek the will of the Lord in prayer. This is the kind of fasting that meets God's approval.

From the fact that they were directed to send forth those whom the Spirit called, we learn that the real call to Christ's service comes from the Spirit. The Spirit calls and the church sends the motion by sending those who are called. They sent the very best men from the church at Antioch.

III. Preaching the Word of God in Cyprus (vv. 4, 5).

We are not told as to why they first went to Cyprus, but we infer that it was because it was the home of Barnabas. It is most natural that those who have heard good news should go with it first to their kindred and friends. As they went forth they preached the Word of God; not civil righteousness, current history, philosophy, etc. The great need today is Spirit-called and Spirit-filled men preaching God's Word.

IV. Withstood by Elymas the Sorcerer (vv. 6-12).

When Barnabas and Saul by invitation were telling Sergius Paulus of the Word of God, Elymas maliciously sought to turn his mind from the faith. This is the first obstacle they encountered. This opposer is the same one who came to Adam in Eden and to Jesus in the wilderness. He is the enemy of God and man. He now seeks to bar the gospel as it enters upon its career of the conversion of the heathen.

Saul denounced him in the most scathing terms, calling him the child of the devil, full of guile and villainy, and pronounced him the enemy of all righteousness, accusing him of perverting the right ways of the Lord.

Happily, the deputy heeded Saul's teaching and believed the gospel. It was in this connection that Saul's name was changed to Paul.

V. In the Synagogue at Antioch in Pisidia (vv. 13, 16).

From Paphos Paul and Barnabas went northward to Perga. From Perga they went into Antioch in Pisidia, where they entered the synagogue on the Sabbath day. Though he was sent to the Gentiles he does not depart from the order of beginning with the Jews. After the usual reading of the Scriptures, upon the invitation of the rulers, Paul delivered the discourse recorded in verses 17-41. This sermon is worthy of careful study. It consists of four parts: (1) Historical (vv. 17-23); apologetic (vv. 24-37); (2) doctrinal, (vv. 38, 39); (4) practical (vv. 40, 41). It sets forth the missionary message for all times and lands. Its essence should ever be the same. In this sermon he presented the glorified and risen Christ as the Savior from sin, basing his proof upon the testimony of living witnesses and the inspired Word.

VI. The Effect of the Sermon (vv. 42-52).

Many of the Jews and proselytes requested them to speak to them again. Almost the whole city came to hear the Word of God the next Sabbath. This great crowd incited the jealousy of the Jews. This jealousy could not long be restrained; it broke out in open opposition. This opposition was in turn answered by Paul's rejection of them and turning to the Gentiles.

Learn the True Wisdom.
Learn, O student, the true wisdom. See you bush aflame with roses, like the burning bush of Moses. Listen, and thou shalt hear, if thy soul be not deaf, how from out it, soft and clear, speaks to thee the Lord Almighty.—Hantz.

A Question of Right.
But Peter and John answered and said unto them. Whether it be right in the sight of God, to hearken unto you more than unto God, judge ye.—Acts 4:19.

WANTED—Five young men for traveling proposition. No experience necessary. Apply room 16, Jordan Hotel, between 5 and 8:30 p. m. 8-6-11 pd

Fordson

Hitherto the farmer has woven the power of his own muscles with those of the ox, the mule, and the horse, in the development of agriculture. Practical machinery for farming has come to him slowly. Where the value of modern machinery in labor saving, in profit-making, in usefulness, in comforts, in luxuries, has in the past been largely confined to the towns and the cities, it is now open to the farmer who is beyond all question the very bone and sinew of civilization. Civilization grows upon the land, therefore the land is Father and Mother and Sustainer to the human race, and those who till the soil, who plow, sow and reap, are purely the essentials in human existence. Therefore Machine Power on the Farm is of the utmost importance and the Fordson Tractor comes to the farmer as the best, we believe, piece of machinery that has yet been devised for his use.

We want you to read the book "The Fordson at Work." It is free for the asking. Call in and get one. Drop us a card and we will mail you one without charge. This booklet is along the line of the usual Fordway of giving the testimony of the users, those who have tried out and who know the real value of the Fordson Tractor. This book shows the Fordson at work in some ninety different lines of activity and to the farmer it presents the most valuable evidence of an all around serviceable, economical, labor-saving, and money-saving machine that has ever been placed upon the market. We can only get so many each month, so leave your order now.
